

MARCH 2023/APRIL 2023 AVAILABILITY

Above: This majestic Oregon White Oak (*Quercus garryana*) is an important part of our vineyard and native plant nursery ecosystem. Used as a Witness Tree by early surveyors, we protected it by shortening several rows as we began planting our Mahonia Vineyard in the 80's. We have an extensive inventory of oaks grown from acorns and larger specimens, (2"- 14" caliper, 6'-35' tall) rescued from sites being cleared or thinned. As a founding member of the Willamette Valley Oak Accord, we offer discounts to Oak Accord members on our native oaks. **Below:** Oregon's native Showy Milkweed (*Asclepias speciosa*) is an important part of the Western Monarch Butterfly's long journey from overwintering sites from as far south as Baja, California. The milkweed species are a critical element in the recovery of the dangerously low populations of our western Monarchs. New plantings of these nectar fuel stations can help in this journey to recovery.
